FINAL FIGURES ON ELECTION

McCoy Polls 2,891 Votes To Win School Post; Reese Total Is 2,823 Ballots

According to figures arrived at by the Board of Supervisors in its canvass of the precinct vote and of the absentee votes in the recent election, Kenneth McCoy, principal of Buckeye school at Shingle Springs, has defeated Harry Reese, principal of the Pollock Pines school, in the race for the office of County School Superintendent.

This was the only contest for a county office which was left in doubt by the unofficial figures which were available last week.

In the Fourth district race for Supervisor, Carl Niegel led Dan Bassi, incumbent, by a margin of 22 votes on the basis of the precinct tally, and the absentee tabulation gave Mr. Niegel 11 votes for a total of 360, and Mr. Bassi 16 for a total of 343.

The Board found in its canvass of the precinct tallies that Mr. McCoy had polled two thousand seven hundred sixty-five votes as against two thousand seven hundred eighteen for Mr. Reese. The absentee count gave Mr. McCoy one hundred twenty-six additional votes and Mr. Reese one hundred five additional votes, making their respective totals as follows: McCoy, two thousand eight hundred ninety-one, and Reese, two thousand eight hundred twenty-three.

A total of six thousand seventy votes was tabulated in the election and of these five thousand eight hundred sixteen were cast at the polls and two hundred fifty-four were absentee ballots.

Attention is directed to the accompanying table for the total of votes in other tabulated election issues.

99 Fires Burn Only 46 Acres

Forest Service Report For Season Notes 41 Blazes Caused By Lightning

Eldorado Forest reports 99 fires during the past season, burning over a total of only 46 acres, with 25 law enforcement cases.

Forty-one of the fires are listed as caused by lightning.

Five are in the lumbering industry, twenty-nine were started from camp fires, nine resulted from the carelessness of smokers and five were caused by the burning of debris.

Ten are in the class designated as miscellaneous, including summer cottages, automobiles, etc.

The total number of fires, and the circumstance that they were confined to a total of 46 acres, is considered a good record for the year, particularly in view of the great fire and forest fire at the beginning of the season. However, the hazard was checked to some extent throughout the season by recurring thunderstorms over the forest.

FREIGHT RATES HIT U. S. FARM MARKETS, EDITOR DECLARES

State Farm Bureau Federation Closes Annual Meeting Today At Sacramento With Election Of Officers, Adoption Of Resolutions, Presenting Awards

SACRAMENTO, (AP)—Four days of discussion on vital farming problems neared a close today as 2500 delegates to the 20th annual California Farm Bureau attended concluding sessions.

Election of officers, adoption of resolutions and presentation of awards remained on the schedule.

Labor and agriculture, medical care for rural people, and the subject of rural hospitalization were treated in the final addresses today. Holmes Bishop, of Orange, president of the Associated Farmers of California, Inc., discussed the problem of excessive transient labor and the difficult problem of maintaining high agricultural wages in face of a declining farm income.

"California farmers have been and are paying the highest wage of any state in the union," Bishop said. "The farmer must stand on the premise that wages must be based on the ability to pay and the supply should not enter in. Fixed charges are dangerous to the farmer because there is no requirement that the worker must return any definite accomplishment."

Discussing labor relations, Bishop pointed out that changing times have pushed the farmer and his workers farther apart. He urged better human relations on the farm "for the purpose of peaceful consideration of mutual problems."

John E. Pickett, editor of the Pacific Rural Press, was the main speaker at the annual banquet last night. He charged that excessive freight rates prevented American farmers from supplying the domestic market forcing heavy exports and inviting even greater imports. He said high freight rates forced manufacturers to establish factories and

assembly plants on the west coast but said farmers are unable to do this.

"The American farmer has been sold down the river by all political parties," he said. "Things are getting worse under present reciprocal tariffs. We should preserve the American market for the American farmer."

A similar attack on trade treaties was made by Alex Johnson, secretary of the Federation, who said it is doubtful if America's former farm export trade can be regained. Johnson attributed the basis for the present economic depression largely to the loss of this trade, adding that "nationalistic policies of foreign countries, lack of purchasing power abroad, and prevailing chaotic conditions growing out of war fears are directly responsible for the distressed situation in which California's specialty crop growers, as well as producer of basic crops, now find themselves."

"While the intent of the theory behind reciprocal trade agreements is good, we do not believe those agreements can overcome prevailing economic conditions abroad and restore to us our former markets."

The extent of cooperative marketing was revealed by Dr. John Schneider, extension specialist in marketing for the University of California, who said there are more than 15,000 bona-fide agricultural cooperative marketing associations in the United States, comprising a membership of more than 3,800,000 members, and handling an annual business volume of \$2,500,000,000. He said the 522 selling associations and 600 mutual water companies in California have a membership of 82,680 and have an annual business volume of \$261,000,000.

New Clues Spur Search For Boy Missing Seven Days

DOUGLAS, ARIZ. (AP)—Several new clues today spurred the seven-day search of Rucker Canyon for Jerry Hays, 5-year-old son of an Arizona miner.

A party of searchers came out of the canyon area, north of here, to report finding new footprints and a bloodstained stick in the vicinity of the tracks.

They said sheriff I. V. Pruitt, leading a small army of searchers, had reconsidered abandoning the hunt after deciding the clues justified its continuance.

The footprints were identified as those of the boy who wandered from

his parents' hunting camp in the canyon last Friday morning. The stick was sent to a laboratory for a scientific test to determine whether the blood was that of a human or an animal.

Mr. Sloan resided with his son, employed locally in government service, and was found dead by the son when he returned from work Wednesday evening. Circumstances indicated the old gentleman had collapsed while attending to household work, probably during the forenoon.

A native of Kansas, he had lived in California more than 20 years and for several years prior to about four months ago resided in Placerville.

The son, Frank, and a sister in Kansas are surviving relatives.

F. F. Moran of the Forest headquarters was at Government Island Thursday.

VAN HARLINGEN TO TURN FULL TIME TO COMMERCIAL ART

E. Van Harlingen has been making splendid progress in establishing a studio and are work business, to make scenic backgrounds for display windows in stores. Working at spare time, since fall, in the warehouse at the rear of his store, Mr. Van Harlingen has turned out a number of pieces of art work, some of which have already been used in stores in several cities throughout the Sacramento Valley.

Recently Mr. Van Harlingen had a studio, a one story structure, built on Sacramento Street, which he now has fully equipped with special air-pressure spray guns, brushes, saws, processing table, and an electric cutawl, which is used in designing stencils.

He is now working with two large wholesale houses in establishing a complete advertising display window service for a group of hardware stores through Northern California. It is his plan within the near future, to devote his entire time to this now line of work, making Placerville his headquarters.

One of Mr. Van Harlingen's outstanding pieces of art work, that of El Dorado County's Lumber industry and wooden box promotion, was displayed at the recent county fair. Another, a Christmas scene, is now being displayed at Murray's store.

Alfred Swanson Seeks Northwest Home

Alfred Swanson, who recently disposed of his place near Placerville, is reported to be looking over holdings in Oregon and Washington with a view to settling there. Mr. Swanson had been an El Dorado County resident for some fifteen years and will be missed by his many friends and acquaintances to whom he was a kind and sympathetic neighbor. We are certain that nowhere on earth will he find a more congenial community than El Dorado County, but somewhere in the Northwest he has found a second best spot in the world, and his friends hope so.

They stopped at Chicago, where Mr. Wilkinson visited his nearby birthplace and also looked into the pear marketing business, and returned home by the southern route, stopping at San Diego and other points in the Los Angeles vicinity for short visits.

Other Bible citations will include: "For we know that the whole creation groaneth and travaileth in pain together until now. And not only they, but ourselves also, which have the first-fruits of the Spirit, even we ourselves groan within ourselves, waiting for the adoption, to wit the redemption of our body" (Rom. 8:22-23).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "If action proceeds from the divine Mind, action is harmonious. If it comes from erring mortal mind, it is discordant and ends in sin, sickness, death. . . . The perfect Mind sends forth perfection, for God is Mind." (p. 239).

Plans for a 6:30 o'clock potluck supper on November 28, following which the regular meeting will be held, were made by the Eagles Auxiliary at their regular meeting last Monday night.

**Steeplejack Paints
Courthouse Staff**

The flag pole standing in the yard at the courthouse has had a new dressing of gold and silver paint, the work being done by Fred Wriden, steeplejack and chimney sweep.

Mr. Whidden could have used a ladder and, owing to the circumstance that the pole is jointed, might have painted it without getting far off the ground, but he chose "the hard way," and climbed to the top Wednesday afternoon and "worked his way down."

Mrs. Albert Gardner was in the county seat Thursday enroute to her home in Greenwood following a visit at San Francisco with Mr. Gardner, who is a patient at the Marine Hospital.
